

Strategy ‘One Haplotype End’

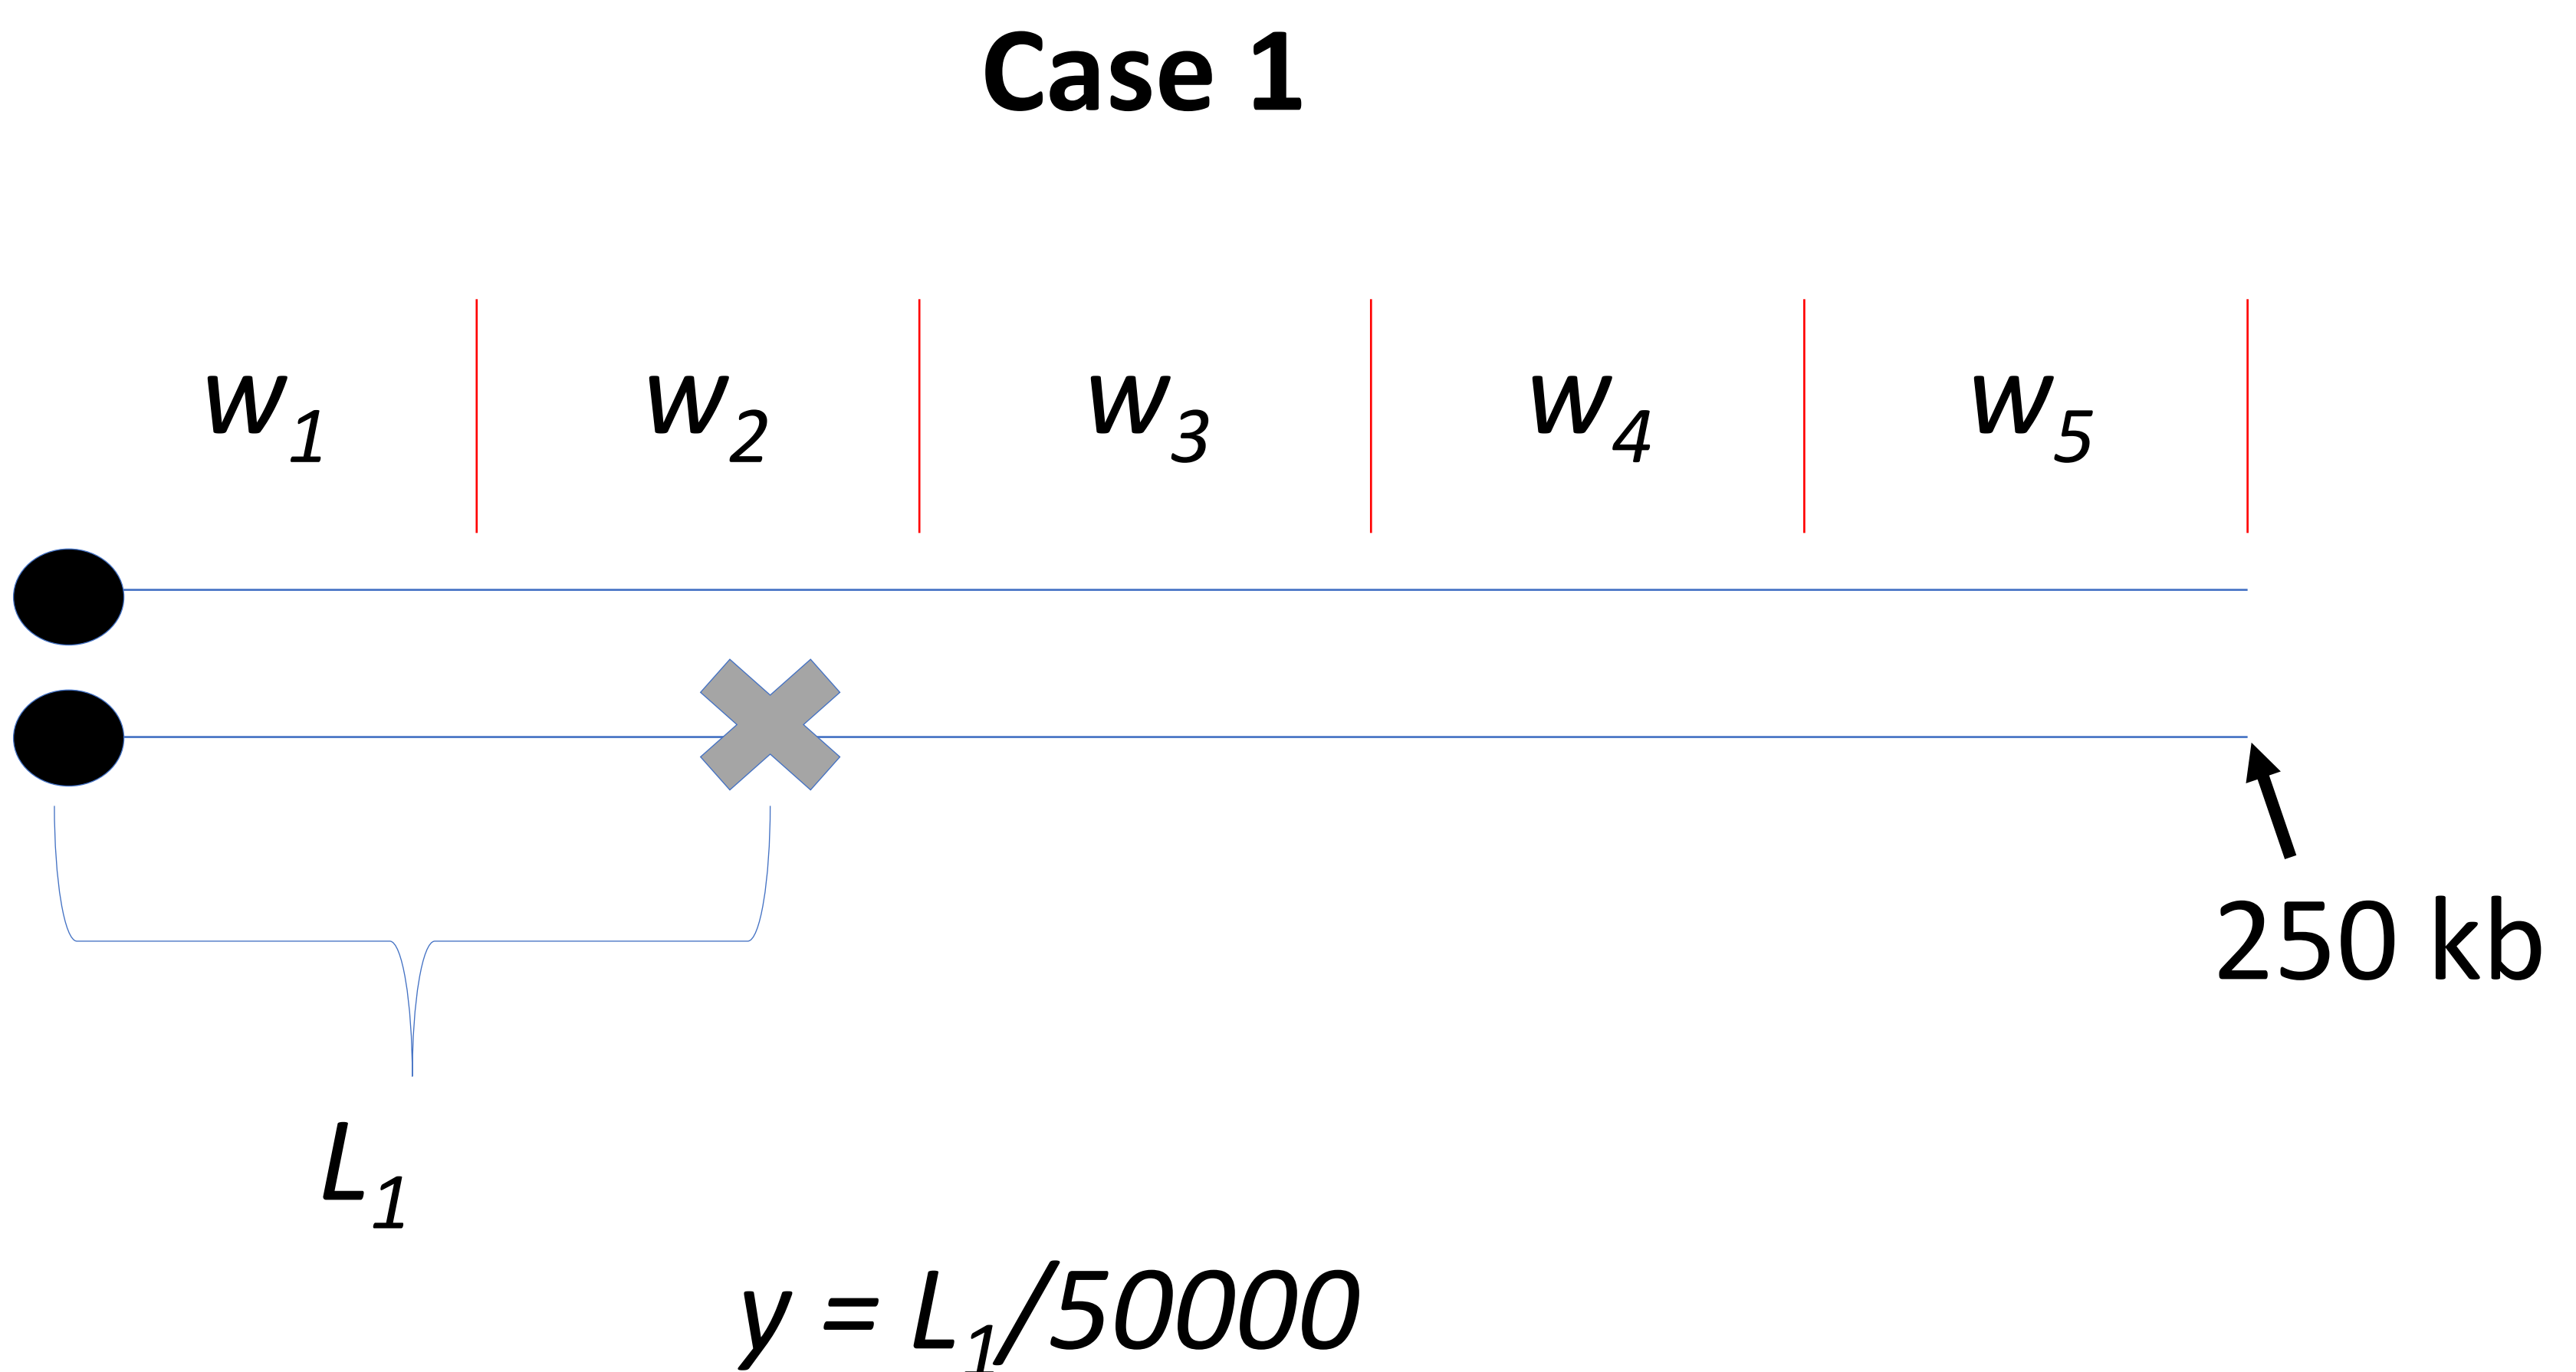

Strategy ‘Both Haplotype Ends’

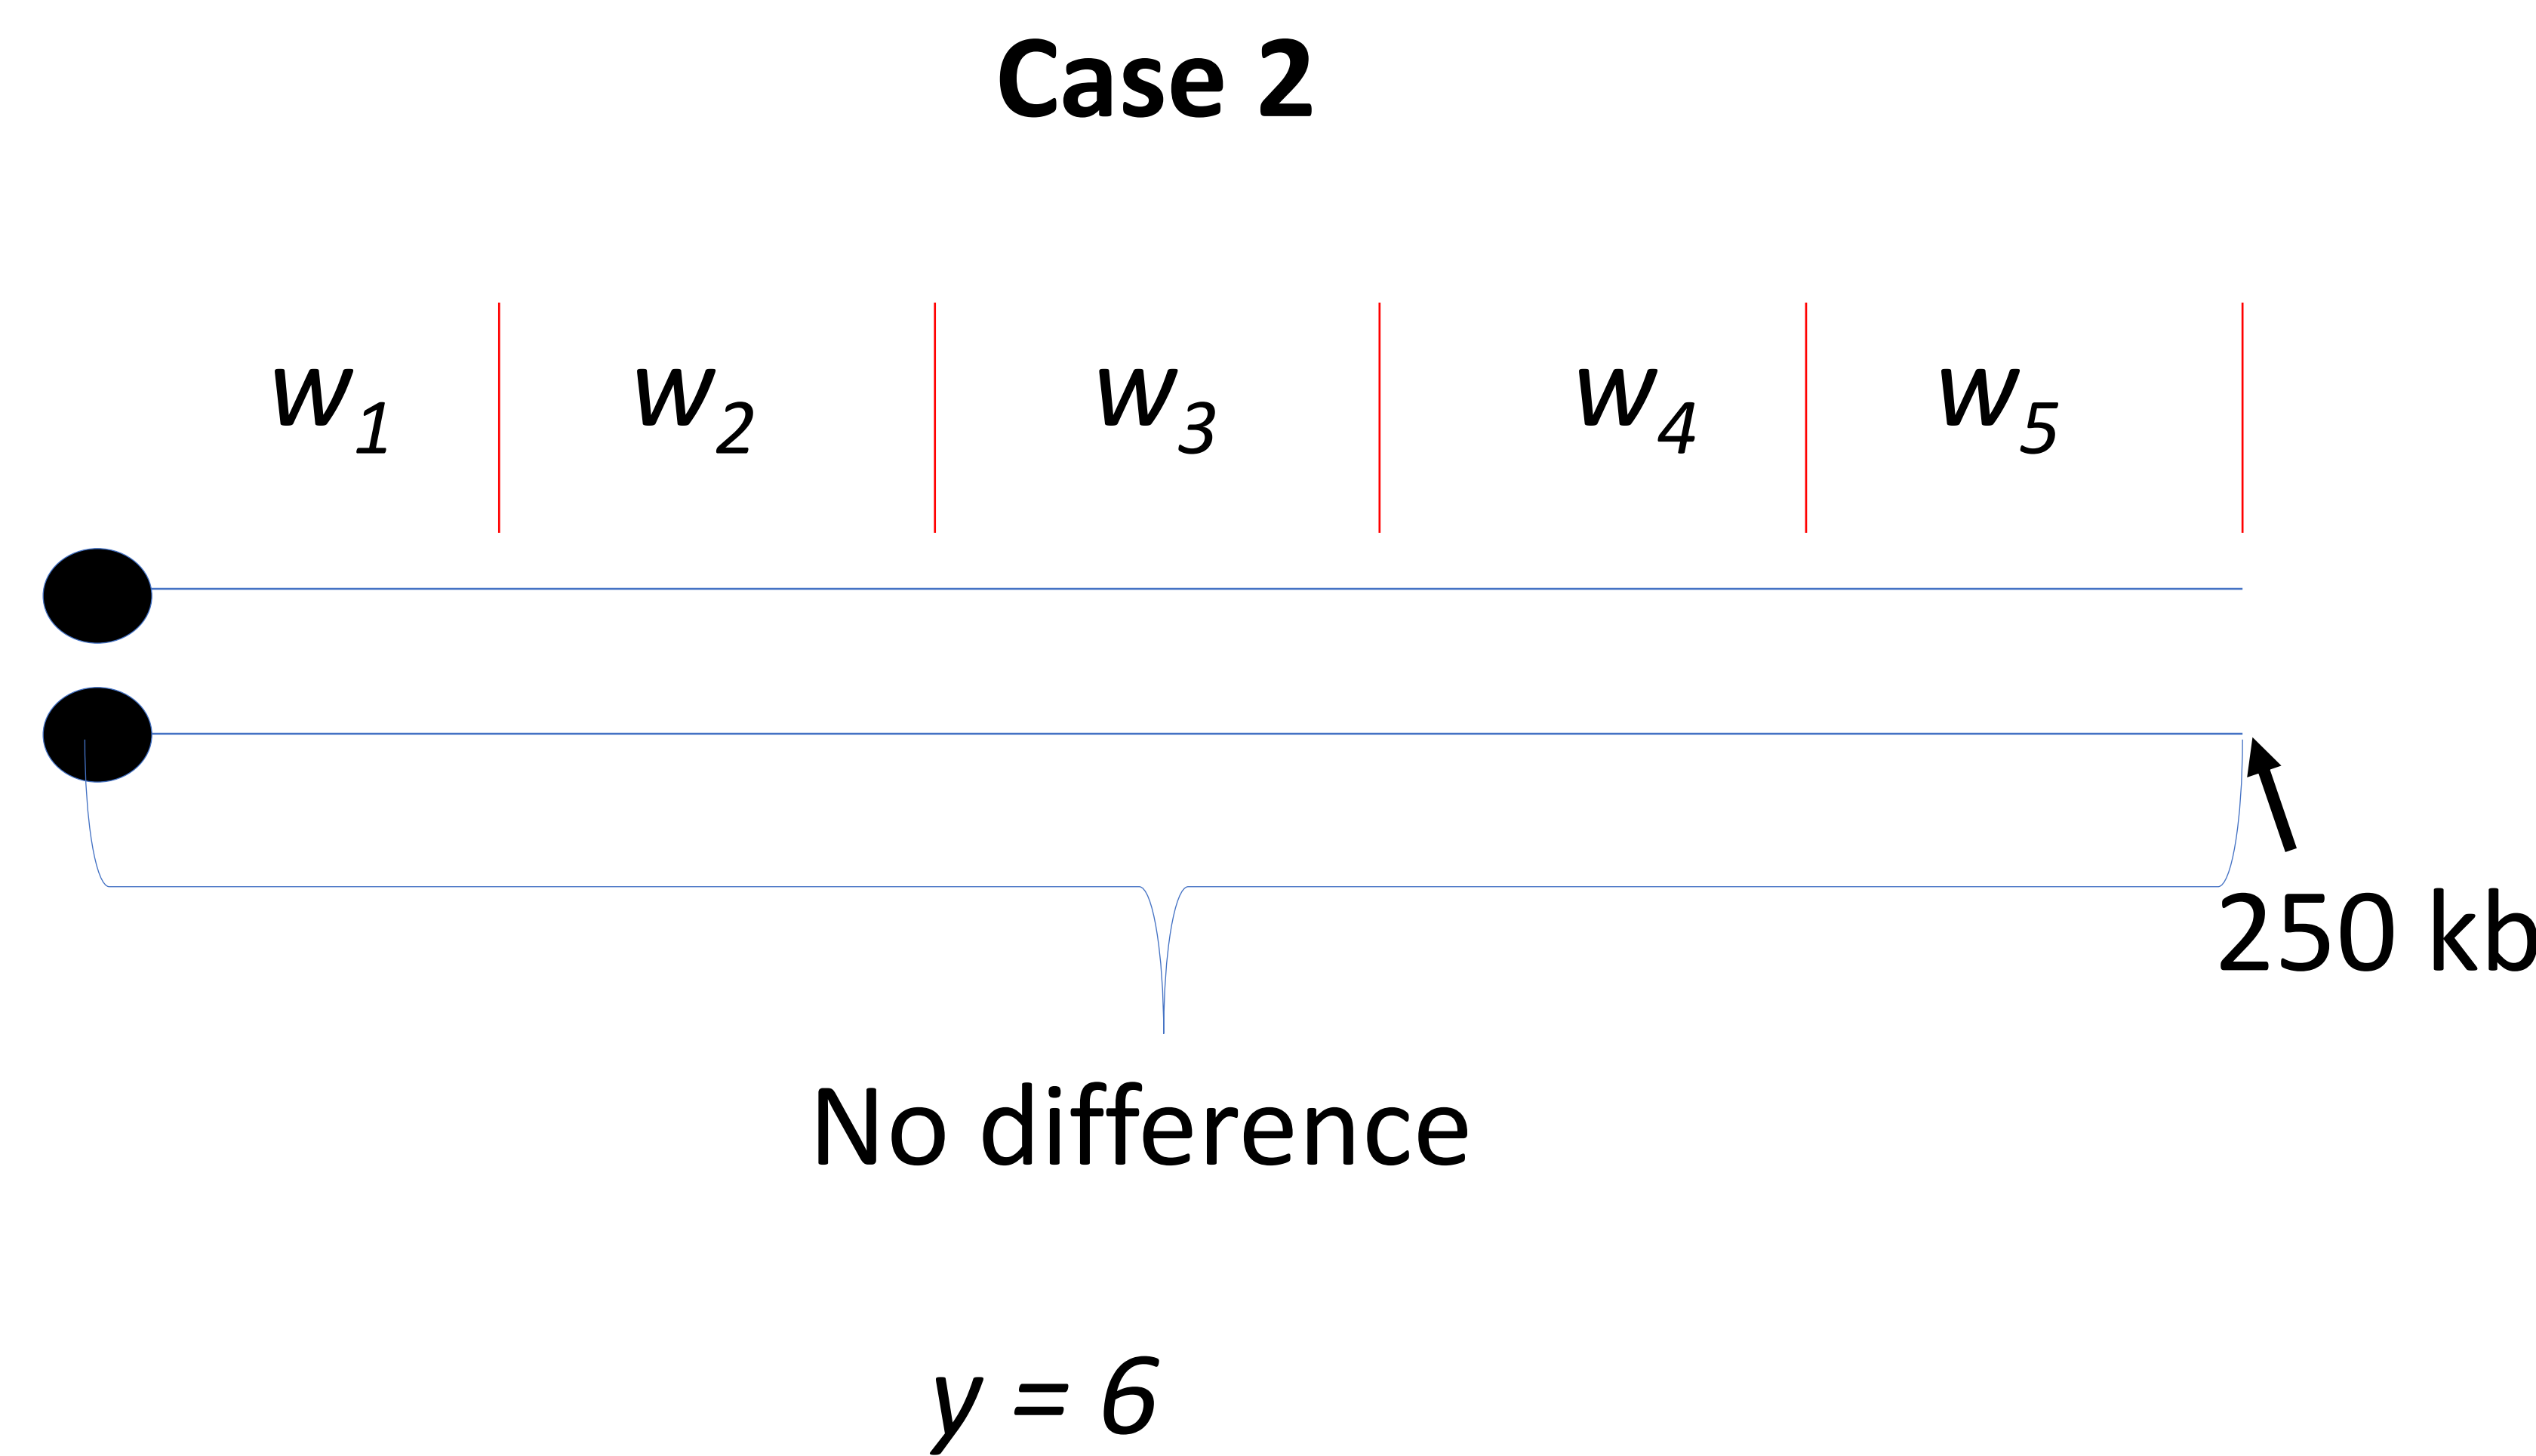

Windows of pairwise haplotypic identity by state lengths (L) using the upstream and downstream regions of the focal allele

Strategy ‘One Haplotype End’

$L \in w_y$ here

$L \in w_y$ here

Strategy ‘Both Haplotype Ends’

Windows of pairwise haplotypic identity by state lengths (L') using the upstream and downstream regions of the focal allele
